- 4 The statutory auditors have in their limited review report for the quarter ended June 30, 2014 observed that "As at June 30, 2014, the Company has investments in equity and preference share capital in its wholly owned subsidiary Allsectech Manila Inc., Philippines aggregating Rs. 2,586 lakhs. The subsidiary's accumulated losses have fully eroded its net worth as at June 30, 2014. The recovery of the value of such investment in the subsidiary is dependent upon the ability of the subsidiary to establish successful operations in the future and achieve sustained profitability. In view of the operational and financial position of the subsidiary as noted above, we are unable to comment on the adjustments, if any, that may be required to be made to the carrying value of such investments. Our audit opinion on the financial statements for the year ended March 31, 2014 and the limited review report for the quarter ended June 30, 2013 was also qualified in respect of the above matter".

Management has undertaken several initiatives to improve its income from operations and establish profitable operations. Management has also entered into arrangements such as subleasing of excess capacity to earn alternative sources of income. Based on these action plans, the management is confident that the subsidiary will be able to earn sufficient profit which will enable the parent Company to recoup the value of investments in the subsidiary. Based on the above, management is of the view that no provision is required to be made to the carrying value of such investments.

5 The statutory auditors have in their limited review report for the quarter ended June 30, 2014 observed that " As at June 30, 2014, The Company has investment of of Rs. 1,214 lakhs in its wholly owned subsidiary Allsectech Inc., USA, advance recoverable of Rs. 301 lakhs and receivable balance (net) of Rs.88 lakhs from such subsidiary's accumulated losses have fully eroded its net worth as at June 30, 2014. The recovery of the value of such investment in the subsidiary is dependent upon the ability of the subsidiary to establish successful operations in the future and achieve sustained profitability. In view of the operational and financial position of the subsidiary as noted above, we are unable to comment on the adjustments, if any, that may be required to be made to the carrying value of such investments, advances and receivables. Our audit opinion on the financial statements for the year ended March 31, 2014 and the limited review report for the quarter ended June 30, 2013 was also qualified in respect of the above matter".

Management has undertaken several initiatives to restructure the operations of its subsidiary and establish profitable operations. The management believes that the synergy of the consolidated operations of parent and subsidiary increases the operational efficiency of the group. Considering that the investment in subsidiary is long term in nature and steps have been taken by the management for turnaround of the subsidiary, diminution in value is considered as temporary and management is of the view that no provision is required to be made to the carrying value of such investments and other receivables.

- 6 The cost incurred in developing MSP was written off during the previous quarter as the envisaged system which is on a leased platform does not have any customers nor any immediate revenue potential due to changes in the market place.
